Subject: Re: LPRSA - May 8th tech mtg - EPA time slot on agenda

Jennifer:

Going back to EPA's March 26 email on the RARC and the Risk Assessment submissions in which you suggested that the RI/FS meeting might need to be scheduled if the HHRA and ERA were not received by April 24. Currently, the CPG does not anticipate submitting the HHRA and ERA by April 24. In addition, the EPA imposed a second condition on the CPG for the next meeting of providing meeting material by April 24; CPG cannot commit to providing presentations and other meeting materials a full two weeks before the May 8 meeting.

The CPG is going under the assumption that the May 8 meeting will likely be postponed and rescheduled due to EPA's two conditions imposed for the next RI/FS Meeting in its March 26 email.

Let me know if you wish to discuss this further.

Thank you.

Rob,

Any update on the May 8th RI/FS technical meeting agenda? I don't recall if Stephanie had mentioned this before she left, but EPA will want an 30 minute time slot to discuss mapping approaches. Our contractors, CDM, HDR, and John Kern are preparing a presentation on the topic. So, as a heads up we will want to add that into the agenda.

Thanks,

Jennifer LaPoma
